EXECUTIVE REGISTRY FILE

Mr. Albert Gore, Senator for Tennessee
and Mr. Allen Dulles, Chief of Central
Intelligence Service,
Washington, D.C.,
U.S.A.

Dear Sirs:

Inasmuch as you two gentlemen have been the only ones to kindly acknowledge receipt of my correspondence regarding my Country as well as my dad, herewith with my most grateful thanks do wish to offer a suggestion to the present state of World affairs.

Kruschov has cinically and diabolically planned the strangling of all efforts for World Peace as well as destroying from its base the structure of the free world, there is one thing that will be an impact on the soviet purposes: WITHHOLD U.S.A. PRESIDENTIAL ELECTIONS UNTIL OCCIDENT HAVE ITS SAY ONCE AND FOR ALL. Wish you would give some thought to my idea, for you see how cunningly this red evil russian and all his rifraf including paranoic Castro are bundling up the international situation at your very doorstep and practically on the eve of your present elections, precisely because their timing is paired off with your national worries in order to catch you unprepared to give your full attention to World affairs which in the long run will become home affairs of each and every free standing Country as of today. Please have both Mr. Nixon and Mr. Kennedy and all main politicians involved in the future destiny of the greatest living Nation of the world today: United States of America, look fearlessly into the eye of the Evil Spirit that is progressively advancing thru his "choiced children" and in the grand and traditional American manner do give him a right to the jaw: WITHHOLD PRESIDENTIAL ELECTIONS. For the sake of the human rights of men, for the sake of generations to come, of the spiritual values endowed upon us by Our Lord to whom we owe the greatest of all gifts, the most powerful: the Intelligence. Let us use it to destroy evil. Let us use it to serve God. As of ever and more so in these crucial times.

I know this proposition will be difficult to accept for it means a tremendous readjusting of your constitutional rights, but we are living dangerous moments that like cancer must be attended now in its beginning. Nobody wants to live minus one leg or one eye and so on, but it is wiser to amputate in time than too late when the cancer cells have totally invaded the whole body. Think gentlemen that U.S.A. is the Rome of modern times and let us keep it that way. Let us honor our God by protecting our moral convictions and our Christian faith. Let us smash the hateful commies for good. If we fight hunger we fight communism. Remember: "The way to a man's heart is thru his stomach". Develop a campaign BREAD FOR PEACE.

Sincerely yours,
